SUBJECT: PROPOSED RISK MITIGATION DECISION FOR RODENTICIDES

In November of 2011, the Centers for Disease Control and Prevention (CDC) was asked to review EPA's "Notice of Intent to Cancel and Notice of Denial of Registrations for Certain Rodenticide Bait Products". CDC concurred with some specific comments at that time. In addition, we would like to reiterate our previous comments from May, 2007 for the record.

I would greatly appreciate your assistance in forwarding these comments to the appropriate SMEs within EPA. Please call my staffer Sally Toye at 404-639-7082 should you have any questions. Thank you.
